

WATER PROTECTORS IN THE FIELD

Nursery Owner - Megan Munteer

Megan Munteer is the owner of Country Gardens and Nursery in Heber City, where she cares for and teaches people about plants.

Megan's favorite part of the job is teaching members of her community about waterwise landscape choices.

Running a nursery doesn't require a degree, but does require a knowledge of plants and a love of the earth. It also requires skills like how to set up an irrigation systems.

You can help Megan protect water by switching areas of grass to other uses such as gardens or play spaces.
